__Sprint 1 Report__
__Spotify Tags__
__Wednesday, 30 January 2023__

Actions to stop doing:

- Not knowing when the sprint ends and waiting until the last minute.

Actions to start doing:

- Be more specific and accurate about what the tasks are going to be in sprint planning.

- Getting started on the tasks earlier.

- Asking for help from the team sooner than later.

Actions to keep doing:

- We all showed up to meetings.

- We all contributed to group work, including initial presentation slides, Scrum documents (Release Plan, Sprint Plans, Sprint Report), Spikes, and/ or Sprint tasks.

Work completed:

- Create React play button component (2 hours) [Dustin]

- Create React front end to display songs (8 hours) [Ryan]

Not completed:

- Refresh access token automatically (3 hours) [Brandon]

- Set up SpotifyPlayerSDK to play music (2 hours) [Diana]

- On clicking on a song, use Spotify API to play the song (1 hour) [Armaan]

- Hook the button up to start or stop the music. (1 hour) [Victor]

Work completion rate:

- Two out of six user stories were completed

- Sprint 1 was 7 days long

- Ideal work hours:
    - Brandon: 12
    - Dustin: 3
    - Ryan: 8
