Style Guidelines:

- follow eslint linting
- classes of just JavaScript (not react code) are in camel case (starting with lowercase)
- classes of React components are in camel case (starting with uppercase)
- the only functions declared with 'function' are component functions
    - all other functions are declared as arrow functions

Definition of Done:

1. **For User Stories**

    - all DOD for tasks are completed

    - Product Owner reviews added features

2. **For Tasks**
    - code passes eslint/React linting

    - documentation for each function is completed

    - passes review(s) from appropriate reviewer(s) before merging into master branch

    - new feature is fully merged and integrated
