Sprint 3 Report
Spotify Tags
Tuesday, 28 February 2023

Actions to stop doing:

- Ignoring seemingly harmless errors

Actions to start doing:

- Fix eslint errors before pushing code to the GitHub master repo (part of DoD).

- If you merge someone else's pull request (after all Reviews are complete and there are no merge conflicts), inform everyone on the Discord server.

Actions to keep doing:

- We all showed up to meetings on time.

- We all started early with our tasks. This led to a successful sprint.

- Keep asking questions to team members when needed.

Work completed:

- Create React skip/prev button component (1 hour) [Diana]

- When playing song, give list of songs instead of just one (1 hour) [Diana]

- Use material UI to style the play, skip, prev buttons (1 hour) [Armaan]

- Hook the buttons up to skip/prev the current song (1 hour) [Armaan]

- Create a component to display the songs in your library. (5 hours) [Armaan]

- Use Spotify API to get the artist and album information to make special tags (that are not removable). (3 hours) [Diana]

- Construct the statement (tags picker) (8 hours) [Victor]

- Create a front end interface to choose a method of sorting. (7 hours) [Brandon]

- Use JS to sort the list of displayed songs based on the sorting described. (5 hours) [Dustin]

- Create extra state to track currently playing song, update state when necessary. (2 hours) [Ryan]

- Highlight the currently playing song using CSS or React styling. (1 hour) [Ryan]

Not completed: (will update once pull requests for tasks are finished)

- Add tags to a song when viewing its details (6 hours) [Ryan]

- Add tags to the expression (6 hours) [Ryan]

Work completion rate:

- 5 out of 6 user stories were completed

- Sprint 3 was 14 days long

- Ideal work hours:

    - Brandon: 7

    - Dustin: 5

    - Ryan: 15

    - Armaan: 7

    - Diana: 5

    - Victor: 8

- Average stories:

    - Through 3 sprints, the average number of user stories is 6.

- Average ideal hours:

- Through three sprints, the average number of ideal work hours is 40.
